THE INTERNATIONAL SHAIVISM RETREAT

28th November - 3rd December 2017 – Brașov, România

Kashmir Shaivism tradition is considered one of the most transcendental forms of yoga, as well as the purest and highest form of tantrism, and certainly one of the greatest spiritual treasures of humankind, which offers an extraordinarily direct, effective path towards God.

In this spiritual retreat, participants will receive certain very important initiations of the secret tradition of Kashmir Shaivism:

- Essential esoteric practices that are integrated in the traditional spiritual ceremonies of ecstatic, identifying communion with Shiva;
- Secret techniques of spiritual enlightenment from the fundamental treatise Vijnana Bhairava Tantra;
- The revelation of novel hypostases of Shiva;
- Special spiritual exemplifications;
- Also, the traditional spiritual ceremony of awakening the formidable power of the Shiva-*lingam* (the essential godly creative power) will be held again!

but also, generally speaking, one of the most important, secret and efficient spiritual initiations. Among the numerous amazing beneficial effects of this secret initiation we mention briefly the following:

- The complete attainment of the tantric ideal of VIRA (spiritual hero) by men and of SHAKTI (the divine inspiring and initiatory power) respectively by women;
- The awakening and ascension of the essential energy of the being, *Kundalini Shakti*;
- The attainment of a perfect sexual-erotic continence both by men and women, during their ecstatic, amorous union;
- The awakening of an extraordinarily intense spiritual aspiration, meant to attract almost instantly, the liberating Godly Grace, which reveals the Eternal Self, *Atman*;
- The awakening in our being's inner universe of a divinely integrated, all-accomplishing willpower, as well as of a perfect state of occult resonance with the all-powerful Will of God.

By awakening, in our being's inner universe, the formidable occult power of Shiva-*lingam* we attain the ability to enter easily in a profound state of resonance with all godly hypostases and attributes. This is why, the esoteric revelations referring to the formidable power of the *lingam* (and of the formidable, complementary power of the *yoni*) are not only the foundation of all forms of Tantra,

For all international Kashmir Shivaism teachers, the fifth module of the special intensive preparation course is included in this retreat.
